Sneak Peek offers a wealth of descriptive information, title reviews, summaries, and cover images for everything from juvenile chapter books to conference proceedings. Additional content and information is added or updated on a weekly basis. With Sneak Peek, you'll have access to more than 1.5 million ISBNs with associated data elements that are easily accessible from Alexandria's search interfaces.

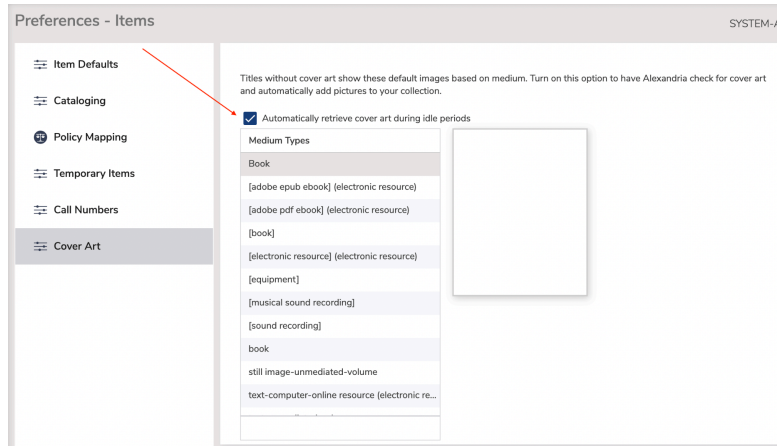

You are **registered** for this add-on.

When enabled, a Sneak Peek button will be included within an item's information in Researcher results. Clicking on the button will connect your patrons to these enhancement resources. Activate Sneak Peek by providing your code, which will be given to you after you have registered your subscription to Sneak Peek.
