

With up-to-date, accurate metadata for better discoverability, you'll increase circulation and extend the value of your library's collection. **Mitinet® sets the standard in metadata management.** Alexandria® is the **ONLY** library management system with native integration with Mitinet's best-in-class online MARC management systems, making processing and maintaining your MARC records fast, easy and convenient.

## DISCOVERY WITHOUT LIMITS

**No matter your library's needs, we work with you to create your perfect virtual cataloging solution.**

In addition to the power of EnhanceMARC, BestMARC subscribers will have full access to features such as record source and workflows through Mitinet's web-based software portal.

EnhanceMARC is entirely integrated within Alexandria, allowing for MARC data enhancements such as award notes, reading programs, and more.

Try before you buy! Experience limited access to BestMARC's features FREE for a whole year. See backside for more details.

**We at Alexandria are dedicated to providing you the tools to succeed. That is why we are the ONLY library automation software to partner with Mitinet for complete MARC data automation!**
